Just lowered this secluded log cabin to \$629,000 on 7/29/22. An investment you can count on. Literally!! The owner brought in over 85,000 in 2021 and over \$139,000 in the two full years he has had it on Airbnb and VRBO. This perfectly secluded log cabin at the end of a dead end road is great for honeymooners or families looking to escape to a quieter getaway. Located only a few minutes away from the Great Smoky Mountains National Park yet also only minutes away from all the excitement and attractions of Gatlinburg and Pigeon Forge. This beauty has received 4.86 (out of 5) reviews from 166 guests.. A great floor plan with a private en suite bedroom on each level, so multiple couples have complete privacy. The common areas on the main living areas have durable true oak hardwood floors, The fully equipped kitchen has newer SS appliances and the gas log, corner fireplace puts out a great flame for cozy nights on the couch. The upstairs bath has a large whirlpool tub and a rain head shower. Outside are covered decks on both levels. The Private hot tub is totally secluded with a wooded view and no other cabins in sight. The lower level contains the second en suite bedroom and a large game room with pool table and shuffleboard game. Two sleeper sofas allow for accommodating up to 8 guests. Ask your agent to preview this one on its first available date of 8/25/22
